Consumer Price Index Report

November 1977

Prepared by
Consumer Price Index Section
Census & Statistics Department
Hong Kong
The Consumer Price Indices (July 73/June 74 = 100) for November 1977

<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>C.P.I.(A)</td>
<td>118</td>
</tr>
<tr>
<td>C.P.I.(B)</td>
<td>119</td>
</tr>
</tbody>
</table>

The C.P.I.(A) is based on weights derived from the expenditure of households spending between $400 - $1,499 a month and the C.P.I.(B) between $1,500 - $2,999 a month in the Household Expenditure Survey, 1973/74.

2. The Consumer Price Index (A) and Consumer Price Index (B) for November 1977 were 118 and 119 respectively. Compared with the previous month, C.P.I.(A) declined by 2 points and C.P.I.(B), by 1 point. The index for foodstuffs fell by 3 points in C.P.I.(A) and by 2 points in C.P.I.(B). On the other hand, the index for clothing and footwear advanced by 3 points in both C.P.I.(A) and C.P.I.(B). Increases of 1 point each were recorded in the indices for housing and miscellaneous goods in C.P.I.(B). Price movements in other commodity sections and services were insignificant.

3. The effect on the "all-items" index of the changes in the section indices is indicated below:

<table>
<thead>
<tr>
<th>Section</th>
<th>Weights</th>
<th>Index for November 1977 compared with that for October 1977 (points)</th>
<th>Effect of changes on &quot;all-items&quot; index (points)</th>

<td>-1.42 - 0.88</td>
</tr>
</tbody>
</table>

- less than 0.005

a. This figure, 1.42, must be subtracted from previous month's unrounded index of 119.88 and not from the published index of 120.

b. This figure, 0.08, must be added to previous month's unrounded index of 125.49 and not to the published index of 125.

c. This figure, 0.32, must be added to previous month's unrounded index of 121.42 and not to the published index of 121.
4. An analysis of the average retail prices in November 1977, compared with the previous month, shows the following points of interest:

**FOODSTUFFS**

5. The index for foodstuffs decreased by 3 points in C.P.I.(A) and by 2 points in C.P.I.(B). Reductions in retail prices of fresh vegetables more than offset rises in those of salt-water fish, fresh-water fish and meals bought away from home. Movements in the average retail prices of the other food items were insignificant.

(i) Salt-water fish - Despite stable supply, the average retail price of salt-water fish went up by 5% in C.P.I.(A) and by 4% in C.P.I.(B).

(ii) Fresh-water fish - Irregular supplies of fresh-water fish caused the average retail price to rise by 8% in C.P.I.(A) and by 6% in C.P.I.(B).

(iii) Fresh vegetables - Owing to increased supply, the average retail price of fresh vegetables fell by 28% in C.P.I.(A) and by 27% in C.P.I.(B).

(iv) Meals bought away from home - As some restaurants and eating-places raised their prices, the average price of meals advanced by 1% in C.P.I.(B).

**HOUSING**

6. The index for housing increased by 1 point in C.P.I.(B) owing to higher charges for housing maintenance.

**CLOTHING AND FOOTWEAR**

7. The rise of 3 points in the index for clothing and footwear in both C.P.I.(A) and C.P.I.(B) was attributable to higher prices for some outerclothing items as some shops suspended their discount sales during the month.

**MISCELLANEOUS GOODS**

8. Higher prices for medicines and jewellery pushed the index for miscellaneous goods up by 1 point in C.P.I.(B).
Tables

Table 1 shows the monthly Consumer Price Index (A) by sections from October 1976.

Table 2 shows the monthly Consumer Price Index (B) by sections from October 1976.

Table 3 shows the index movements by sections and groups of the C.P.I.(A) for November 1977 compared with the previous month and the corresponding month in 1976.

Table 4 shows the index movements by sections and groups of the C.P.I.(B) for November 1977 compared with the previous month and the corresponding month in 1976.

Table 5 shows a list of selected commodity/service groups the price changes of which had the largest effect on the C.P.I.(A) for November 1977 compared with the previous month.

Table 6 shows a list of selected commodity/service groups the price changes of which had the largest effect on the C.P.I.(B) for November 1977 compared with the previous month.

Table 7 shows the average retail prices of some essential food items and their respective price ranges for the current month, the previous month and the corresponding month in 1976, together with the number of price quotations for each of the items included.

Graphs

Graphs A and B show the value and the centred 12-month moving average of the indices.
